

*A Doctor Who Delivers More Than Babies*  
**OLUMIDE MUGHELLI MD, FACOG**

*Fellow of the American College of Obstetricians & Gynecologists*

*The Faith Behind  
Our Practice*

The first thing we want everyone of our patients to know when they walk through our door, is that our practice is founded on a deep belief in the love and power of God.

By combining the most advanced and effective procedures with the power of prayer and the support of fellow Christians. We've been keeping more women in our community healthier, happier and well informed about all their options.

With every healthy delivery, we're introducing a new addition to our patient's family and God's family. To know we're carrying out God's plan fills us with purpose that calls us higher and helps keep our patient's healthier day by day.

*Delivering healthy babies  
and God's Love*

*My Grandmother, My Inspirations*

My grandmother was a midwife in Nigeria and I (the oldest grandchild) was very close to her. I started hanging around when she was attending to pregnant women and even helped her handing her needed items during deliveries, when I was 9 years old. I was a child helping to bring other children into the world, and it was a life changing experience. That's what compelled me to do what I do today. I always knew that I would end up practicing medicine. Today, I have no doubt that I made the right choice.

*MD: Tufts University School of Medicine - Boston, MA  
Residency: Obstetrics-Gynecology - Columbia University  
College of Physicians And Surgeons - New York, NY*

When I decided that I would become a doctor and devote my life to the health and well being of others, I knew that I wanted only the best education possible. Working and studying at Tufts and Columbia have exposed me to some of the best physicians and teachers in my profession. I've been able to learn and practice the most advanced procedures and state of the art technology. More importantly, I've been able to bring this great experience back home to share with my community, right here in Charleston.

Board-Certified: American Board of Obstetrics and Gynecology  
Member: American Medical Association, American Fertility Society, South Carolina Medical Society, American Association of Gynecology Laparoscopists, Christian Medical Society, Charleston County Medical Association

*Modern Medicine For Everyone*

"By accepting most insurances including Medicare and Medicaid, and making procedures and treatment more affordable.

We're able to provide everyone who comes to us for help with the highest quality of health care."
